About Us

EIS is a leading mid-tier solutions integrator who has provided Software & Systems Engineering, Cyber & Cloud, and Enterprise Infrastructure services and solutions to the Federal Government for more than 25 years. EIS employs more than 350 professionals in 40 locations in over 25 states and OCONUS.

EIS is an agile and dynamic company with relentless focus on customer mission success and delivering the best value to all our clients under all engagements.

In May, 2020, EIS was acquired by Cognosante, a health IT organization. EIS, Inc. is now EIS, LLC, a Cognosante company.

Commitment to Excellence

EIS' dedication to providing complete customer satisfaction is reflected in our commitment to developing an in-depth understanding of our customer's mission and requirements. We maintain a highly motivated professional workforce, skilled in the disciplines that complement our core business. EIS has an exemplary track record of providing total customer satisfaction through the delivery of high quality services, on schedule and at or below budget.

The Alliant 2 GWAC

Alliant 2, GSA's premier enterprise GWAC, provides flexible access to customized IT solutions from a large, diverse pool of industry partners that include a \$50 Billion program ceiling and a five-year base period with one five-year option. The scope of the Alliant GWAC includes any and all components of an integrated IT solution, including all current and any new technologies which may emerge during the life cycle of the Contract, and IT systems and services in support of National Security Systems, as defined in FAR 39.002.

Contract Benefits

With GSA's Alliant 2 Contract, government agencies can obtain a single source of integrated IT services and access to "best in class" private sector IT services. Its broad array of features and benefits include:

- Allows for long-term planning on large-scale programs
- Offers flexibility and supports all contract types (i.e., fixed price, cost reimbursement, labor-hour and time-materials)
- Adheres to pre-competed and streamlined ordering procedures
- Accommodates federal guidelines regarding enterprise architecture and other IT compliance standards and protocols
- Requires Top Secret facility clearances for awardees.
